Dear researchers,  
We are happy to inform you that the conference is dedicated to the anniversary of 10 years of nanotechnology development in the Republic of Moldova.

**The Conference is organized under partial financial support of the project:** "Enhancing the capacities of the ELIRI Research Institute in applied research to enable the integration of Moldova in the European Research Area on the basis of scientific excellence" (MOLD-NANONET, Grant agreement no 294953)

The main goal of the International Conference is to consolidate researchers, experts, and company leaders of different countries to promote further development of nanotechnology for the benefit of the global economy. This development is based on coordinated efforts in different countries and regions through special complex programs related to implementation, recommendations, and information supply, protection of the rights and interests of its members.

**The following sections will be addressed at the conference:**

1. Nanostructures and nanoparticles
2. Nanotechnology in fine mechanics
3. Technology of nanofilms and nanowires
4. Nanotechnologies in bio-medicine
5. Nanotechnologies and robotics
6. Nano-sensors

**Papers submitted and accepted for presentation at the conference will be published in the journal "Physics and Technics: Processes, models, experiments"**
